

SCHOLASTIC Literacy Pro®

Dear Parent or Caregiver,

BPS Family and Engagement Team is committed to helping your child discover the joy of reading independently and develop the skills and habits to become a lifelong reader. Reading 20 minutes a day, every day, will help your child develop reading as a habit—one that will help them in school and throughout their lives.

We are thrilled to let you know that this year, to support your child's reading, our district will be using **Scholastic Literacy Pro**. **Literacy Pro** is a web-based program that allows your child to read ebooks online as well as to track any books they're reading—both in **Literacy Pro** and on their own.

With Literacy Pro, your child will be able to:

- Choose books based on their interests
- Explore more than 2,500 ebooks and connect to thousands of paperback titles
- Set and monitor their reading goals throughout the year
- Deepen comprehension of the books they complete
- Rate and review the books they read

Your child can sign in to **Literacy Pro** from any desktop, laptop, or tablet with an internet connection. Encourage your child to log in and show you **Literacy Pro** throughout the year. Track, monitor, and celebrate achievements together!

Two highlights you won't want to miss:

Ask your child to show you the "My Books" screen and get to know which books interest your child.

Ask to see your child's "Profile" and check on their reading progress in **Literacy Pro**.

We look forward to sharing more about **Literacy Pro** and your child's independent reading experiences this year.

To access Literacy Pro with your child, go to this URL:
